BANKING AND INVESTMENT POLICY

SECTION A

PART 1. LEGAL COMPLIANCE

The municipality shall at all times manage its banking arrangements and investments and conduct its cash management policy in compliance with the provisions of and any further prescriptions made by the Minister of Finance in terms of the Municipal Finance Management Act No. 56 of 2003 and regulations issued in terms of this Act

A paraphrase of the provisions of this Act is attached as Annexure I to this policy.

PART 2. OBJECTIVE OF INVESTMENT POLICY

The council of the municipality is the trustee of the public revenues, which it collects or receives as a grant, and it therefore has an obligation to the community to ensure that the municipality's cash resources are managed effectively and efficiently.

The council therefore has a responsibility to invest these public revenues knowledgeably and judiciously, and must be able to account fully to the community in regard to such investments. These investments must only be made in the name of the municipality.

The investment policy of the municipality is therefore aimed at gaining the optimal return on investments, without incurring undue risks, during those periods when cash revenues are not needed for capital or operational purposes. The effectiveness of the investment policy is dependent on the accuracy of the municipality's cash management programme, which must identify the amounts surplus to the municipality's needs, as well as the time when and period for which such revenues are surplus.

FEZILE DABI DISTRICT MUNICIPALITY
BANKING AND INVESTMENT POLICY

Any such early payment shall be approved by the Chief Financial Officer before any payment is made.

FEZILE DABI DISTRICT MUNICIPALITY

The Accounting Officer shall further ensure that, as far as it is practically and legally possible, the municipality's investments are so distributed that more than one investment category is covered (that is, call, money market and fixed deposits). In order to reduce investment risk, the investment with one investment institution shall not exceed 45% of the total investments (excluding investments made per council resolution).

Council shall not to borrow monies for the purpose of re-investment, as this is tantamount to speculation using public funds.

6.2 Risk and Return

Although the objective of the Accounting Officer in making investments on behalf of the municipality shall always be to obtain the best interest rate on offer, this consideration must be tempered by the degree of risk involved with regard to both the financial institution and the investment instrument concerned. No investment shall be made with an institution where the degree of risk is perceived to be higher than the average risk associated with investment institutions. The Accounting Officer shall consider any other administrative and operational risk such as failure to perform by the investment institution in his/her investment decision. 6.5 Call Deposits and Fixed Deposits

Before making any call or fixed deposits, the Accounting Officer assisted by the Chief Financial Officer, shall obtain quotations from at least three financial institutions.

FEZILE DABI DISTRICT MUNICIPALITY
BANKING AND INVESTMENT POLICY

In such cases the Chief Financial Officer, must be guided by the best rates of interest pertaining to the specific type of investment, which the municipality requires, and to the best and most secure instrument available at the time.

Short-term debt shall be raised only to anticipate a certain long-term debt agreement or a certain inflow of operating revenues.

PART 11. INVESTMENTS FOR THE REDEMPTION OF LONG-TERM LIABILITIES
