

FEZILE DABI MORAL REGENERATION LAUNCHED AT ZAMDELA

Moral Regeneration is a concept and a programme that is undertaken by government and civil society, that is aimed at promoting human rights and ethical behavior in our society.

The launch of the of this movement in this district comes at a time when the District engulfed and faced with problems of moral decay in our community, Speaking during the launch the Executive Mayor told the community that the recent killings and raping of adult citizen in places such as Parys and Viljoenskroon, the breaking in and stealing of computers in our schools, are incidents that are very foreign and not known in our community, and such incidents calls upon all of us to work together very hard in improving on how do we raise our children as a society.

“Our schools are no longer places of source of knowledge, but have become a haven of criminals, drugs, sex and alcohol abuse, not so long ago as a Nation we witnessed an embarrassing act of learners engaging in sex, in full view of other learners, worse recording the incident on their phone to share with the entire world through social media. The recent sex video at Abramsrust has shocked us as a community of this Municipality,

Learners are no longer fearful to carry a bottle of beer, on the other hand carrying school back going to school in full view of everyone, as we saw in Sowetan not so long ago, alcohol has become a defining character for our youth in this country, and if something is not done urgently, we are becoming a nation of drinkers and drug addicts”

The MEC's of Social Development expressed happiness at the fact that Fezile Dabi District Municipality has taken a lead in establishing this structure, and stressed that everyone must work very hard in making sure that this becomes a success, "I want to encourage you, especially you girls to preserve what has been given to you by God, your virginity, being a virgin is power, so please don't allow boys to take advantage of your innocence, we can't afford to continue to have parentless children in this country, let's take responsibility and act within acceptable moral values".

It is expected that the committee will be announced soon to ensure that there is a programme of action that will be followed, so that the structure becomes effective and relevant.
