

MMC KAU KHUMALO DELIVERS HIS PROMISE TO VREDEFORT PRIMARY SCHOOL

Monetary donations are the most frequent and of course the most direct way of supporting the work of education in schools to purchase needed materials and equipment. Fezile Dabi District Municipality recognizes the importance of such donations when on 28 February 2012, the Executive Mayor, Councillor Moeketsi Moshodi and MMC Kau Khumalo donated a cheque of R30 000-00 to Vredefort Primary School.

Presenting a welcome address, the Principal of the school, Mr. Y. Ismail welcomed everybody present in particular the Executive Mayor of Fezile Dabi District Municipality, Councillor Moeketsi Moshodi for the show of commitment towards the development of education in both the district and the province.

Ismail said in his speech that some municipalities have taken education as the competency of both the provincial and national spheres of government thereby shifting their responsibility to support education in whatever form within their local jurisdiction, and he thanked Fezile Dabi District Municipality for their support and consideration of their circumstances as the school.

Addressing the audience, the Executive Mayor of Fezile Dabi District Municipality, Councillor Moshodi said that Fezile Dabi will never stop to contribute towards the improvement of the standard of education in the region.

He said that whilst his administration acknowledges the fact that education is the competency of both the provincial and the national spheres of government there is nothing that stops the local sphere of government to contribute positively towards education. And that such a contribution can take many forms . He further pleaded with the school management to utilize the money properly for the betterment of education in that school.
